

The Contributors

Corey Scholefield

Victoria, British Columbia, Canada

I work in the area of public-sector digital identity management, designing access management solutions that meet requirements for information security, ease of use, and privacy. I am currently working on identity systems renewal projects for the University of Victoria, related to systems that provide accounts-provisioning, access certification, and identity life-cycle management functions. I am also working in the area of identity federation with Higher-Ed colleagues connected to BCNet, CANARIE, and the Canadian Access Federation.
